

Software Applications

Aperture™

Platforms: Client—Windows 2000/XP; Macintosh OSX; Server—Windows, Linux, OSX

FileMiner™

SASI Bridge™ / Aeries Parser™—SASI and Aeries Systems; other SIS upon request

Report Card on Computer (Aperture Lite™)

Platforms: Client—Windows 2000/XP; Macintosh OSX; Server—Windows, Linux, OSX

Data Support Services

The Custom Reporting of...

- overall school/grade/classroom achievement, based on aggregate strand/substrand scores,
- subgroup achievement—disaggregated by ethnicity, gender, economic factors, mobility, English fluency—for a school/grade/classroom,
- school/grade level/classroom achievement to set improvement targets,
- individual student achievement, based on multiyear matched scores for national and classroom assessment measures,
- the relationship between site/classroom assessment measures and success on state or national achievement tests,
- the evaluation of existing student information/data collection systems, with consultation and recommendations to increase efficiency, user access, and overall facility,
- special reports for national norm referenced, criterion referenced, primary language, English language proficiency, high school exit, and other tests results files.

Pre-ID services

Preparation of the pre-identification submission files for national and state tests.

Data collection instruments

The design/publication of paper and online surveys—bubble-in documents—for parent, student, and/or educator response.

The tally/reporting of results from surveys in spreadsheet and/or number/percent format.

The design/publication of distributable and online forms for response and data collection—grades, test results, surveys, attendance, report cards.

The design and development of hosted or network database applications to collect and analyze forms submissions and other Internet *Post-format* collection instruments.
